If a wayfarer were creamy informed that a rufflan was waiting at the next corner, he would doubtless turn in his tracks, and take a safer route to his destipation. With just about the same amount of trouble, the attacks of diseases prevalent at this season may be evaded. Nay, the trouble will be less, for drug stores lie in every one's route, and every respectable druggist in the Union keeps on hand HOSTETTER'S BITTER'S. The article is a staple of trade, and it would be as easy to find a grocery without sugar, as the store of an apothecary without this popular tonic remedy.

In view of the experience of the ration with regard to the article, dering the space of twenty years it seems almost unservery to recapitulate its merits to Americans. But as our population is increasing at the rate of a couple of millions a year, in the natural way and by immigration, it may be as well to hint to the rising generation and new arrivals, (the old settlers know all about it, that HOSTETETTER'S STOMACH BITTERS is the most wholesome and potent vegetable tonic over manufactured: that it is a specific for del lility, dyspepsia, billiousness and missinatic fevers; that it prevents, as well as cures, these complains and their complications; that it is not "bad to take," and is absolutely harmless. The proposetor of this celebrated medicine justly claims for it a superiority over all remadles ever offered to the public for the safe, certain, speedy and permanent cure of Agué and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the trith of the assertion, that in no case whatever will it fail to cure, it the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and tong standing cases. Usually, this medicine will not require any aid to keep, the bowels in good ofter; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGET ABLE PAMILY PILLS will be sufficient.

I have receited many testimonials from pro-fessional and medical men, as my almanaes and various publications have shown, all of which are genuine. The following from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have CHEAP ever reserved. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Dr. says of BULL'S WORM DESTROYER:

VILLINOW, WALKER COUNTY, GARL June 29, 1866. Dn. Jone Bull-Dear Sir: I have recently given your "Worm Bestrayer" several trials, and find it wonderfully efficucious. It has not failed in a single instance to have the wished for effect. I am doing a protty large country practice, and have daily use for some article of the kind. I am tree to confess that I know of no remedy recommended by the ablest authors that is so certain and succely in its effects. On the centrary they are insertain in the extreme. Hy object in writing you is to find out upon what terms I can get the medicine directly from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and such articles is contrary to the teachings and practice of a great majority of the regular line of M. D.'s, but I see no just cause or good senses in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and say means to alleviate suffering humanity which I may be able to command but beginning the sense commenders. -pot hesitating because some one more ingen-ious than myself may have learned its effects first, and secured the sole right to secure that knowledge.
